Garden

Material

40D nylon TPU

This air mattress GARDEN has a double-sided air bag that can be used even if one side is punctured to protect the trip. Our camping mat can be stored in a small space after rolling up in the backpack. We use double air valve design that requires only 10-15 breaths, which provides double protection against leakage. The cushion and honeycomb pad are engineered for natural ergonomics to ensure a comfortable sleep experience. The ultra-light 40D nylon surface with waterproof TPU coating provides a durable, abrasion-resistant, waterproof and tear-resistant mattress.

Kenai

Material

nylon,tpu

Your camping will be much more pleasurable with Naturehike Inflatable Camping Sleeping Pad KENAI. Camping can mean an incredible adventure, but the one thing that can easily ruin your experience is a bad camping mattress. Not only does a bad mattress have the potential to compromise your health, it's usually even worse than if you were to just sleep on the ground! There are many things you'll need to consider when buying a quality camping mattress.

Hickory

Material

600D oxford cloth, aluminum alloy

This Naturehike chair HICKORY has convenient storage, it can be carried with one hand after storage, the small package just contains the bracket and the chair cover. The chair surface is made of Oxford cloth. It will improve the tear-resistance and the breath-ability. No sweating. Both the structural materials are upgraded. And the 7075 thick aluminum tube of the bracket is processed by the T6 process. This processing will make the whole chair be more stable. The ball-shaped foot cover increases the contact area, reduces the pressure, and prevents sinking. Widening the chair surface, which is more suitable for the human body structure, and the comfort feels like being surrounded by gentleness, without a sense of restraint.

Ramsey

Material

aluminum alloy accessory: bowl*3 (PP), spoon*1 (ABS, meal spoon*1, sponge*1

Small pot: 14.8x8.5

Big pot: 17.2x9.8

Frying pan: 18x4.3

The size of the pot RAMSEY is designed reasonably to form an integrated package storage mode. It not only saves space and is convenient for carrying out, but also is a good lightweight outdoor picnic product. The aluminum material used in the pot body is oxidized, the material is light and easy to use. The non stick pot is easy to clean and heated evenly. This product does not use unhealthy harmful coating, pot process oxidation, can be used at ease. It adopts arc-shaped left-right symmetrical handle design, which is not only stable, not easy to slip off, but also convenient to store and occupy no space.
